Pages Confirmed Clean (No Fixes Needed)

Page	Lines	Notes
PBSMainPage / PBSLayoutPage	—	Already consistent
OrganizationPage	—	Already consistent
SettingsPage	—	Already consistent

Common Patterns Found

Most Frequent Issue: Oversized Titles

- 15 pages used `text-2xl`, 2 used `text-xl`, 1 used `text-3xl`
- All normalized to `text-lg font-bold`

Second Most Frequent: Oversized Icons

- 17 pages had `size={18}` icons; 1 had `size={20}`
- All normalized to `size={16}`

Third Most Frequent: Oversized Button Padding

- 16 pages had `px-4 py-2` toolbar buttons without `text-sm`
- All normalized to `px-3 py-2 text-sm`

Guidelines for New Pages

When creating new pages, follow this template for the toolbar area:

```

{ /* Title */}
<h1 className="text-lg font-bold text-gray-900 dark:text-white">Page Title</h1>

{ /* Search */}
<Search className="absolute left-3 top-1/2 -translate-y-1/2 text-gray-400" size={16} />

{ /* Primary action button */}
<button className="flex items-center gap-2 px-3 py-2 text-sm bg-blue-600 hover:bg-blue-700 text-white"
  <Plus size={16} />
  Create Item
</button>

{ /* Secondary action button */}
<button className="flex items-center gap-2 px-3 py-2 text-sm border border-gray-300 dark:border-gray-600"
  <Download size={16} />
  Export
</button>

{ /* Filter toggle */}
<Filter size={16} className="text-gray-600 dark:text-gray-400" />
{isExpanded ? (
  <ChevronUp size={16} className="text-gray-600 dark:text-gray-400" />
) : (
  <ChevronDown size={16} className="text-gray-600 dark:text-gray-400" />
)}

```

Verification

All 20 modified files passed TypeScript error checking with **zero errors** after changes were applied.
